

# The Complete and utter noob guide to flashing your XBOX360

By PrimitiveX5

In the following guide we will cover all aspects of modifying your XBOX360 in a very understanding setup even a caveman could follow it.

## Stage one

1. Do you actually own an XBOX360? as this would help a lot! if not then you would need to go to your local retail outlet and buy one.
2. You will need a strange thing called money for this exercise, or you may get this response from the retail assistant!

## Stage two

### Disclaimer

You need to understand that the XBOX360 is an expensive complicated piece of modern technology and can cause harm to you, your family and friends if not treated with respect. If you pass the following prerequisites read on.

1. Do you have an IQ of at least 20?
2. If you're a women reading this then **STOP** and get back into the kitchen as it's common knowledge you're useless!
3. Can you count to twenty without using your toes?
4. Do you wet the bed? (this has nothing to do with the prerequisites just thought I would ask)

5. Can you spell your own name? (always a good start)
6. Do you fart in bed and waft the smell with the covers? (I do)
7. Does your mum look good naked? (if the answer is yes please report to your nearest police station and hand yourself in)

### Stage three

### What can go wrong

1. If you don't follow this tutorial correctly this is what can happen to you!

You will go back to the trees where you belong

2. This is what can happen to your house if you do not flash your XBOX360 correctly.

ARE YOU READY TO FLASH YOUR  
XBOX360?  
Then read on!

READ THE FECKING RULES AND  
TEXTBOOKS TUTORIAL BEFORE  
POSTING IN THE FORUMS!!!!!!!
